Les

Received safely. I note your views and will gladly report them to Committee. However, there will be Officer comments on your letter, which I will include in next week's Update Report. Your correspondence and this reply will be placed on our web site.

Dear Geoff

Please find attached the URP's comments on this project. We believe this development has the potential to bring huge benefits to Bath, and we strongly support it. I would be grateful if the Development Control Committee could be provided with the full text of the letter, and free of officer comments.

I will send a further copy in the post.

Kind regards

Les
