Your Ref:

Dear John

**RE: STOWEY QUARRY**

Further to the latest consultation response from the Environment Agency on planning application 10/05199/EFUL it is apparent that there remains a substantial amount of additional information that would be needed before they would be prepared to consider withdrawing their holding objection.

Having regard to the likely timescales required to provide this information it is the Council's view that the current application (10/05199/EFUL) should be withdrawn. This will then enable you to assemble the information required by the Environment Agency and to re-submit when you consider you have sufficient information to address the objections raised.

I would appreciate your views on this approach but if we have not heard, or the application has not been withdrawn, within 3 weeks of the date of this letter the Council will proceed to determine the application at the next available committee (currently the 29<sup>th</sup> August) having regard to the current position of the EA.

If you have any queries, please do not hesitate in contacting me on the numbers provided.

Yours sincerely  
**SLR Consulting Limited**

**Chris Herbert**
