Title: **VOLUMES SCHEMATIC**

Drawing No: **2055/126/08**

Client: **Larry Edmunds**

Site: **Stowey Quarry, Stowey Road, Cameley**

NGR:

Date: **2 December 2010** Printed At: **A4**

Scale: **1:2,500** Revision: **-** Drawn By: **RS**

Job No: **2055** Client No: **126** Checked:

**KEY:**  
 — Site boundary

**Notes:**  
 Volume calculations of stockpiles assume no ground level undulations/cavities within edges of stockpiles.

Total quarry void based on the data from models shown in Drawing Nos. 2055/126/04 and 2055/126/05 (original and proposed ground levels respectively).

Volume totals make no account for settlement levels within existing stockpiles and/or void space.

**Revision Details:**

Rev:	Description:	Date:
-	Initial drawing	02/12/10

Stockpile 1: 9,040 m<sup>3</sup>  
 (for processing to retrieve aggregates)

Stockpile 2: 8,519 m<sup>3</sup>  
 (for processing to retrieve aggregates)

Stockpile 3: 107,668 m<sup>3</sup>  
 (for processing to retrieve aggregates)

Stockpile 4: 78,248 m<sup>3</sup>  
 (to remain undisturbed for retention of ruderal vegetation)

Total quarry void: 300,720 m<sup>3</sup>  
 (Based on calculation between the existing ground levels and proposed/finished ground levels)
